

## Innovative Products, Equipment, and Services

From the gases you need, to the delivery systems you require, to the products and services that will make your solution as productive as possible, with a strong pan India presence, Praxair delivers.

### Gas Products

Praxair offers the industrial, medical and specialty gases you need, including Argon, Carbon Dioxide, Helium, Hydrogen, Nitrogen, Oxygen and many more.

### Onsite Plants

For mid- to large-scale gas requirements, Praxair designs, builds and operates a variety of onsite plants for the production of Argon, Hydrogen, Nitrogen and Oxygen. Our plants are strategically located across India to meet the Industrial gas needs of a diverse base of large customers.

### Bulk Storage

As an alternative to cylinders, or for customers requiring considerably large amount of industrial gases, Praxair bulk storage and delivery systems provide a reliable, uninterrupted supply of gases and liquids - and Praxair can manage it all for you.

### Cylinders And Liquid Container Delivery

For smaller quantities of industrial gases, and for custom mixtures required for specialized applications, Praxair offers a complete line of high-pressure gas cylinders, dewars, drums, tonners, and mini-bulk containers that are easy to use and store.

### Pipeline Networks

For industry zones and large operations, Praxair has years of experience designing, building, servicing, and managing pipeline networks that safely deliver large volumes of industrial gases to support uninterrupted operations.

### End-to-end Welding Solutions

Praxair is the only fully integrated industrial gases supplier in India, offering total solutions for metal fabricators that include: welding gases, gas apparatus, gas management systems, manual and automatic welding and cutting equipment, and other productivity enhancement services.

### Healthcare

Serving the healthcare industry for over 50 years, Praxair supplies respiratory therapy gases, laboratory gases, gas delivery systems and associated equipment to institutional facilities throughout India. Praxair also provides healthcare solutions both in hospital care and homecare space, playing a vital role in helping to ease the transition from hospital to home for physicians and their patients.

## Look to a Leader

At Praxair, 27,000 employees in 50 countries are working together towards a common goal: making our planet more productive. For more than 100 years, Praxair has taken something as fundamental as air and turned it into ways to make plants operate cleaner and more productively, food taste better, breathing easier and manufacturing processes more efficient - in short, to make all our lives better.

Praxair is the only industrial gases company to be selected as a component of the Dow Jones Sustainability World Index for the 11th\* consecutive year - thus demonstrating our commitment to sustainable ways of doing business.

\* As of August 2014

## A Leader At Home

Praxair is proud to be a leading producer and supplier of the industrial, medical, and specialty gases that help keep India's vital economy growing.

From a wide array of gas-based application technologies developed here [as the result of a robust, indigenous R & D program], to the design, engineering and performance at our onsite plants and package filling stations, Praxair India is known for its ability to deliver safe, reliable, efficient gas supplies and services that local industries require.

Making this possible, is Praxair's best-in-class cryogenic distribution fleet, coupled with a logistics management system that is second-to-none throughout the region.

Welcome to the world of Praxair India.

## Pillars of Praxair

### Safety First

A passionate commitment to safety underpins all of our activities. The safety of our products and services, safety at work, safety on the road and safety at home are the highest priorities for our employees, contractors, families and customers.

### High Integrity

We continually reinforce the high global standards upon which our reputation has been built, including honesty, ethical conduct and full compliance with the law.

### Results Driven

With personal accountability, collaboration, and innovation, we focus on consistently delivering value to our shareholders and other stakeholders through flawless execution, operational discipline and continuous improvement.

### Customer Satisfaction

We provide products, applications technologies and services that represent the highest standards of quality and reliability. We work closely with our customers to overcome their challenges and achieve their goals.

### The Right People

We place a high value on attracting and developing talented people from diverse backgrounds who use their talent to make an impact in the world and make our company successful.

### Environmental And Social Responsibility

We help customers worldwide improve their environmental performance and carbon footprint, while minimizing our own environmental resource intensity and maximizing our social and community contributions.

### Technology Focus

From concept to commercialization, the Praxair R&D team helps our customers reduce operating costs, boost quality, increase process efficiencies. Our passion for innovation has awarded us over 2,700 patents.

Praxair's Commitment  
to the Communities We Serve

Giving back to our global communities is a core value at Praxair and we take it very seriously. We work hard to make a world of difference through a combination of financial support from our Global Giving Program and the investments our employees make of their dollars, time and talents to organizations that matter most to them.

Samvedana, is a group of Praxair India employees who have been devoted to serving the community for the past seven years, in the areas of health, the environment, and education – all across India. It's financially supported by the donations made by compassionate employee volunteers.

An example of our employee engagement is our collaboration with Spastic Society of Kamataka which helps 100 children living in remote locations of Kamataka who are dealing with neuro-muscular and developmental disabilities, gain access to important medical, therapeutic, and educational services.

Praxair is committed to being a good corporate neighbor and believes in giving back to the communities where we live and work.
